

$$C_1 = \theta_1$$

$$C_2 = \theta_2$$

(a) Option A (2D param.).

$$C_1 = P + \delta_1 \quad C_2 = P + \delta_2$$

(b) Option B (2D param.).

$$C_1 = P + \psi \quad C_2 = P - \psi$$

(c) Option C (D param.).

$$C_1 = P + \psi \quad C_2 = P - \alpha \odot \psi$$

(d) Option D ($D + 5$ param.).
